Summary

I am currently pursuing a B.Tech degree in Information Technology at Dharmsinh Desai University. Actively seeking opportunities in my field, I'm familiar with database management systems like MySQL, and possess knowledge of web development technologies like HTML and CSS. My adaptability and quick learning make me a valuable asset in dynamic IT environments.

Career Summary

- After completing my degree, I embarked on a career path to gain valuable work experience for 2 to 3 years, honing my skills and expertise.
- Subsequently, I pursued a master's degree abroad, broadening my knowledge and global perspective.
- My goal is to settle down and contribute to the international arena, leveraging my academic and professional background for a successful and fulfilling career abroad.

Skill Highlights

- C (Basic)
- C++ (Basic)
